

# PUBLIC HEALTH MEDICINE

NEW ZEALAND COLLEGE  
OF PUBLIC HEALTH MEDICINE

# WHAT IS PUBLIC HEALTH MEDICINE?

Public health is the **science and art of protecting and improving the health of communities** through education, promotion of healthy lifestyles, and research for disease and injury prevention.

Public health works to **prevent health problems before they occur**

NEW ZEALAND COLLEGE  
OF PUBLIC HEALTH MEDICINE

# NEW ZEALAND COLLEGE OF PUBLIC HEALTH MEDICINE

The College was  
established in  
2008

NZ doctors with  
specific expertise  
and interest in the  
practice of PHM

Membership  
includes around  
200 specialists and  
30 registrars

NEW ZEALAND COLLEGE  
OF PUBLIC HEALTH MEDICINE

*Our vision...*  
*Health and Equity for all*

We strive to achieve this through our CORE FUNCTIONS which are...

- Advancing public health medicine through education and member services
- Improving health and health equity in Aotearoa New Zealand

# CORE BUSINESS INCLUDES

- Public health advocacy and policy development
- Setting standards for training PHMS in NZ
- Design and deliver the NZ training programme for public health medicine
- Administer a recertification programme for Public Health in NZ

# A PRESCRIPTION FOR HEALTH AND EQUITY FOR ALL

NZCPHM's 10 identified priorities for the health sector are:

1. Rapidly protect our climate
2. Achieve health equity and advance Māori health and Pacific Peoples' health
3. Eliminate child poverty, ensure child health and address the environmental causes of childhood obesity
4. Safeguard and enhance mental health and wellbeing
5. Reduce harm from alcohol consumption
6. Make New Zealand smoke-free by 2025
7. Guarantee the quality and quantity of New Zealand's housing
8. Tackle antimicrobial resistance
9. Restore the quality of New Zealand's freshwater
10. Invest in public health infrastructure and the public health medicine workforce

# COMMON ROLES IN NEW ZEALAND

- **Medical Officer of Health:** Works alongside other public health professionals to protect and promote the health of the community. This role includes regulatory function and is based within a Public Health Unit within a DHB.
- **Advisors:** On a variety of regulatory and health matters includes service development and planning of programmes
- **Leadership and management:** Focus on population health based services, e.g. DHB CEO, Clinical Director
- **Funding and planning:** Based within DHBs and focussed on the needs assessment, plans and processes, prioritisation and allocative decision making
- **Research and teaching:** Roles requiring a high level of academic expertise

# NZCPHM TRAINING PROGRAMME

The training programme is designed, delivered and administered by the NZCPHM and funded by Health Workforce New Zealand

- **Basic Training (16 months)**  
Completion of Master in Public Health(as prescribed by the College)
- **Advanced training (29 months)**  
Undertaken vocationally at three or more work sites to develop a defined set of Core Skills and Competencies

**Dr Ainsleigh Laumatia**

- Commenced training 2021

**Why did Ainsleigh choose public health?**

“With a skill base aimed at creating broad-scale change, a career in public health allows me to combine my passion for Pacific and Indigenous health equity, global surgery, workforce representation, and so much more.”
